V30 Elite Super Scanner

Unlock Your Diagnostic Profits!

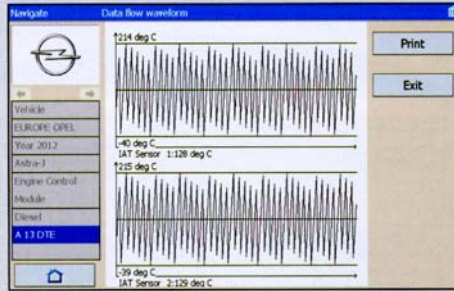

AUTOBOSS[®]

Features of V-30 Elite Super Scanner

- Quick test function to diagnose the complete vehicle
- Cover more than 57 makes, 40,000 vehicle systems
- More than just reading & clearing fault codes - goes far beyond and accesses the complete vehicle, including: drive line, chassis, body, and the networking/communication modules
- Live data and graphing, performs actuations and adaptations
- Key programming, Electronic parking brake, Service light reset and much more
- Cutting edge operation system: Windows CE
- European & Asian vehicles with dealer-level power

Quick Test

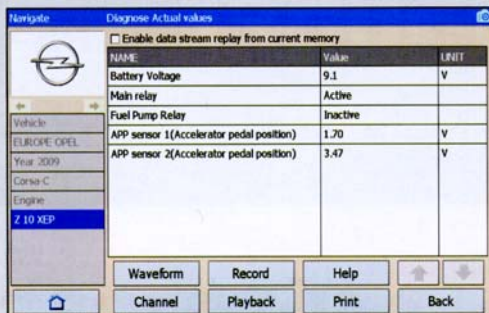

Live Data in Waveform

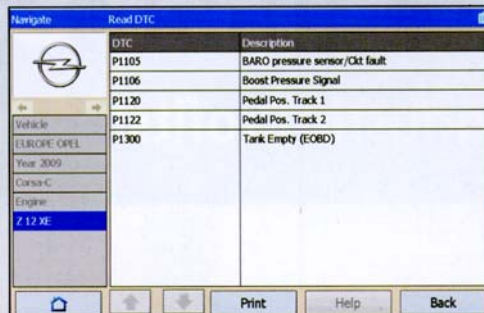

Key & Remote Programming

More functions and features

- Read & change ECU coding
- Coding of the new control modules
- Internet update function
- Testing report saving function
- Built-in Mini Printer
- All necessary cables and adapters included
- One universal connector for most vehicles, including all CAN vehicles

Live data

Fault codes

Special Functions

Mercedes Benz

- Adaption
- Reset ECU
- Reset Odometer
- Learning air conditioning
- Oil change
- Learning of the throttle valve stop and more...

BMW

- Adaption
- Idle speed adjustment
- Injector rate adjustment
- Adaptation air-mass flow sensor
- Reset learning functions
- Steering angle sensor adjustment and more...

FORD EUROPE

- Adaption
- Injector programming
- Key Programming
- Diesel Particulate Filter (DPF) Static Regeneration
- Reset the vehicle speed limit
- Pressure sensor calibration and more...

TOYOTA/LEXUS

- Adaptions
- Air bleeding
- Key code registration
- Electric throttle learning
- Reset Memory
- Initialization and more...

HONDA

- Adaptions
- Program keys of type
- Crank (CKP) Pattern learning
- Sensor calibration
- TP position Reset and more...

OPEL Reset service light reset ECU

LAND ROVER DPF replacement

VOIVO Programming remote control setting

RENAULT Diesel engine injector coding

FIAT/ALFA ROMEO Key programming

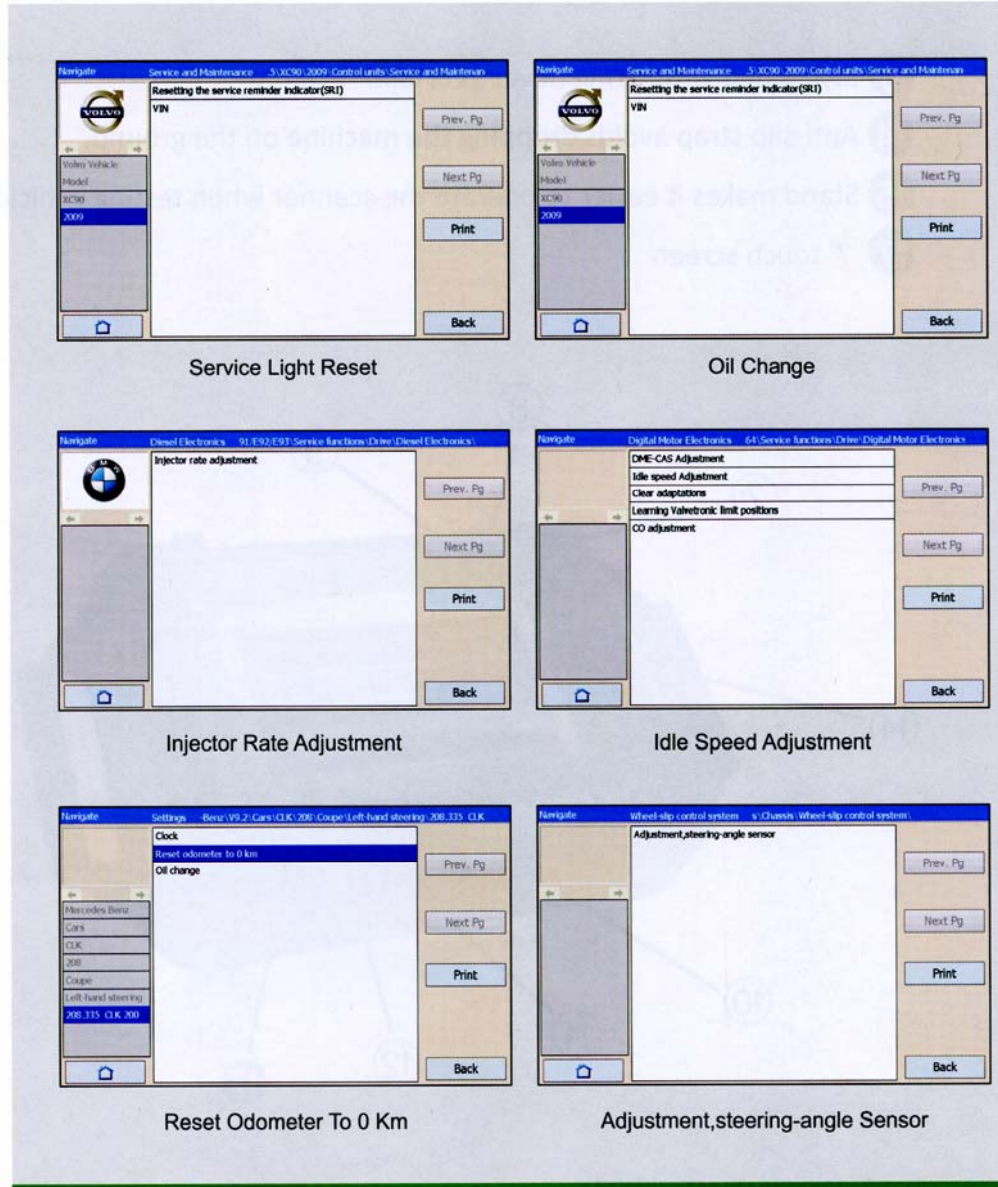

CITROEN Particle filter regeneration

PEUGEOT Bleeding, Service Reset

NISSAN Nissan NATS(I-key), Ignition Timing ADJ

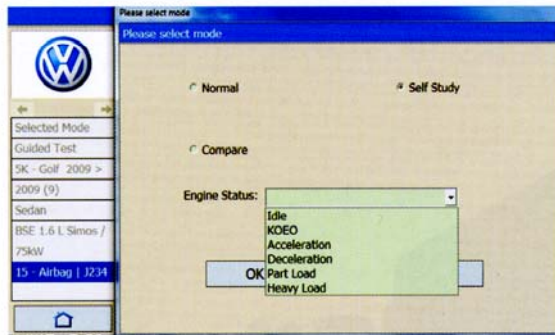

VW/AUDI/SEAT/SKODA Headlight adjustment

...AND MUCH MORE

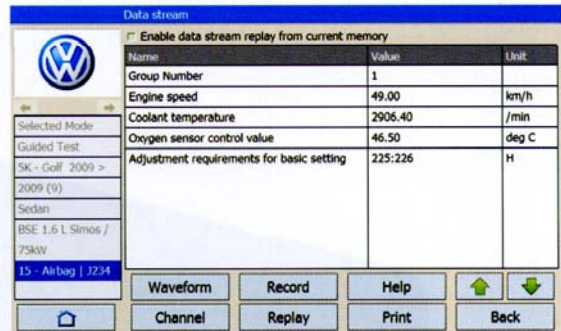

Diagnostic Coverage

Self-Learn

This function enables the scanner to learn and save correct values for ECU live data parameters from a vehicle in good condition. For example, it will learn that on a Opel Astra 1.7 diesel the coolant temperature sender should be reading between 0.5 to 4.5 V.

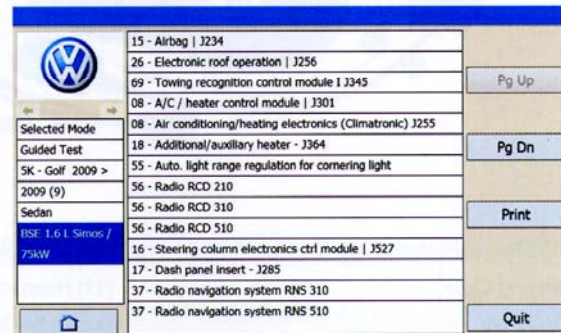

Comparison

This function can compare the learned values against the vehicle you are working on and highlight values which are out of range.

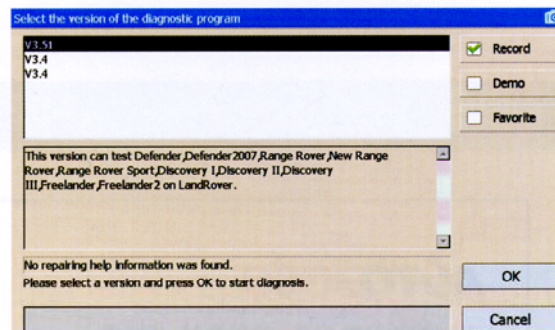

Highlight feature

Highlight values which are out of range.

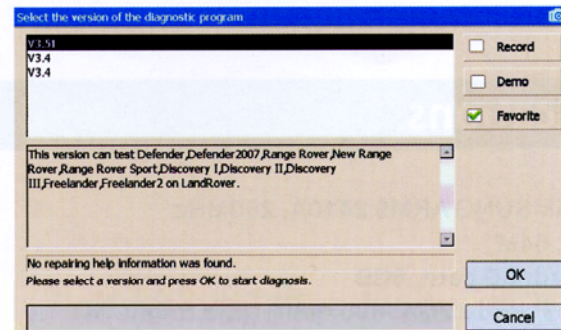

Navigation bar

Navigation bar makes this tool more user-friendly.

Record

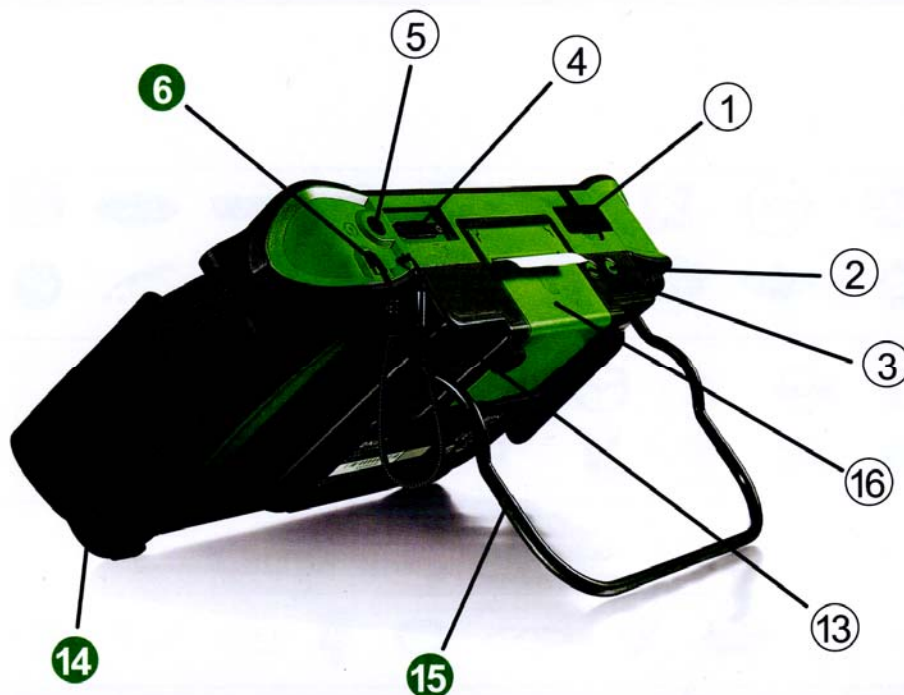

This function enables users to record the vehicle data when testing the vehicle. Users can send the recorded data back to AUTOBOSS for analysis, which will help users solve problems faster.

Favorites

This option enables you to quickly access vehicles you work on the most.

- ⑥ Stylus tied with string never gets lost.
- ⑭ Anti-slip strap avoids dropping the machine on the ground.
- ⑮ Stand makes it easier to operate the scanner when testing vehicles.
- ⑰ 7" touch screen

- ① USB Port (WiFi upgradable)
- ② Test Printing Button
- ③ Paper Release Button
- ④ Diagnostic Port
- ⑤ Power Port
- ⑥ Touch Pen/Stylus Slot
- ⑦ Power Indicator
- ⑧ Paper released Indicator
- ⑨ Printing Test Indicator
- ⑩ SD Card
- ⑪ Working Status Indicator
- ⑫ Power Switch
- ⑬ Fuse
- ⑭ Anti-slip Straps
- ⑮ Stand
- ⑯ Built-in Printer
- ⑰ 7" touch screen

Package Contents

| | | |
|-------------------------------|-----------------------------------|---------------------------|
| (1) V30 Elite Main Unit | (10) Cherry/Fiat-3 | (19) Battery Cable |
| (2) Carrying Case | (11) Honda-3 pin | (20) Cigarette Cable |
| (3) GM-12 pin | (12) BMW-20 pin | (21) DC adaptor |
| (4) Toyota-22 pin | (13) Benz-38 pin | (22) Jumper |
| (5) Kia-20 pin | (14) Hyundai/Mitsubishi 12+16 pin | (23) User manual |
| (6) Mazda-17 pin | (15) Benz-4 pin | (24) SD card reader |
| (7) Toyota-17 pin | (16) VW/AUDI 2+2 pin | (25) Benz-14pin(Sprinter) |
| (8) OBD /CAN 16-Pin Connector | (17) Main Cable | (26) Citroen-16c |
| (9) Nissan-14 pin | (18) COM Cable | (27) Fiat-16 |

Specifications

- CPU: SAMSUNG ARM9 2410A, 200MHz
- Memory: 64M
- Flash card: SD card, 8GB
- Display: 7" Wide VGA (800×480) Ultra Bright TFT
- Power supply: DC 8~15V, AC 110~250V 50Hz
- Port: Diagnostic port, COM port, USB port, Power port
- Operating system: WINDOWS CE
- Storage temperature: -30~85°C
- Working temperature: -10~70°C
- Humidity: <90%
- Package Dimension(mm): L665*W218*H470
- Package Gross Weigh: 13 KG
